

TRAFFIC LIGHT SETTING	BUSINESS TYPE		
	VINEYARDS AND WINERIES	WINE HOSPITALITY BUSINESSES (cellar doors, cafes, restaurants) <i>[We expect that cellar doors offering tastings will fall within the definition of hospitality businesses. If a cellar door is not offering tastings (ie it is a purely retail shop) then our understanding is it could choose to apply the retail requirements.]</i>	
AT ALL TRAFFIC LIGHTS	COVID-19 is across New Zealand, and community transmission is occurring Record keeping/scanning is required (ie the QR code system remains in place) Face coverings will be mandatory on domestic flights		
GREEN	Can operate*	WITH VACCINE CERTIFICATES: No limits for hospitality and events.	WITHOUT VACCINE CERTIFICATES: Max of 100 people for hospitality, with 1m distancing, seated and separated <i>[similar to Alert Level 2]</i>
ORANGE	Face coverings mandatory in more places, including retail, public transport.		
	Can operate*	Retail can open, with capacity limits based on 1m distancing. WITH VACCINE CERTIFICATES: No limits for hospitality, gatherings and events.	WITHOUT VACCINE CERTIFICATES: Hospitality must be contactless only (eg click and collect/takeaway). Events cannot proceed (regardless of whether they are indoors or outdoors).
RED	Face coverings mandatory in more places, including retail, public transport.		
	Can operate, but working from home is encouraged where possible	Retail can open, but capacity limits must be set based on 1m distancing. WITH VACCINE CERTIFICATES: Max of 100 people for hospitality, 1m distancing, seated and separated. <i>[similar to level 2 currently]</i>	WITHOUT VACCINE CERTIFICATES: Hospitality must be contactless only (eg click and collect/takeaway).

Updated 22 November 2021

* Even if the traffic light setting allows your business to operate, your health and safety planning should also consider other COVID-19 protections, such as distancing, mask wearing, hand hygiene. Vineyards are likely to pose a lower transmission risk than wineries, because working indoors has more limited ventilation. By taking other precautions, this means that even if your business does have a positive case of COVID-19, there is a reduced risk of transmission.
