11am | Monday 3rd July | Zoom Tasting with Anne Krebiehl MW and Rebecca Gibb MW

Altogether Unique

Alsace Rocks and New Zealand Rolls ... and they really do. On so many different levels, strata, altitudes...

Our tasting today is not about comparing, but rather showcasing just a small selection of the stunning wines being produced in this region of France which are highly individual and distinctive, and also in New Zealand: a youthful wine industry which produces only 1% of the world's wine, but has an international presence and reputation that far exceeds that, due to its diversity, world-leading focus on sustainability, and of course its distinctly New Zealand expression in the glass.

The wines have been selected by Anne Krebiehl MW and Rebecca Gibb MW, and you'll taste them in pairs – a brace of field blends, then Pinot Gris, Riesling, Gewurztraminer, Pinot Noir and we'll finish with Anne and Rebecca's 'Rock Star' wines.

The Alsace region is a rich and complex mosaic of microclimates and soils, and you can taste this in its wines. The vineyards are situated in the valleys and on the hillsides of an area 120kms long, between 2-15kms wide, which is sheltered on each side by mountain ranges and contains 13 different geological formations. With 1,800 hours of sunshine per annum in Colmar, Alsace is the second sunniest region in France. Its history is as rich as its terroir, having belonged to both France and Germany at different times, and the highly individual wines – made from 7 main varietals – bear testament to this. Winemaking in Alsace remains very much a family or co-operative affair, with some domaines going back 14, 15 or even 16 generations. The region is also moving with the times, and recent years have seen talented newcomers arrive on the scene, many of which are next generation family members.

New Zealand has ten main wine growing regions with each showing great diversity in climate and terrain. No region is more than 130km (80 miles) from the sea and the proximity of vineyards to the ocean has a pronounced effect on the character of New Zealand wines. Mild, sunny summers and marked differences between day and night temperatures in many regions slow the ripening of the grapes and allow them to develop pure, intense varietal flavours. This is the foundation of New Zealand wines' elegance and power, and helps explain their famed balance, structure and food friendliness. And with growing regions extending 1,600 km (1,000 miles) — from latitude 36° South in the subtropical north to latitude 46° South in the mountainous south (the most southerly vineyards in the world) — regional diversity is dramatic, enabling a striking array of wine varieties and styles to flourish.

We encourage you to share feedback and comments, and ask questions, during the tasting. If you're posting on social media, don't forget to include #AlsaceRocks #nzwine. We will be recording the session and we will share the link to the replay video afterwards.

For more information about Alsace and New Zealand wines, please visit **vinsalsace.com** and **nzwine.com**

If you have any further queries about Alsace and New Zealand or about the wines featured today, please contact

Emma Wellings | emma@ew-pr.co.uk

or Chris Stroud cstroud@nzwine.com.

We hope you enjoy the tasting.

PRESENTERS

Anne Krebiehl MW German-born but London-based. Anne is a widely published freelance wine writer. In January 2023, she became editor for Germany. Alsace and Austria for Vinousmedia.com. In June 2021, she launched Falstaff Magazine in the UK and was its editorin-chief until its merger with another title. Prior to that she was the contributing editor for Austria, Alsace, Burgundy and England for US Wine Enthusiast Magazine. She writes for The World of Fine Wine, Decanter and TheBuyer.net. She lectures, particularly on German wine, judges international wine competitions and is a panel chair at the International Wine Challenge. She completed her WSET Diploma in 2010 and was admitted to the Institute of Masters of Wine in September 2014. She loves high-acid wines and her work often focuses on Pinot Noir, Riesling and traditional method sparkling wines. She has harvested and helped to make wine in New Zealand, Germany and Italy. Her first book, The Wines of Germany, published in Infinite Ideas' Classic Wine Library, appeared in September 2019 and won the Domaine Faiveley International Wine Book Of The Year 2020 award at the Louis Roederer International Wine Writers' Awards. In her own time, Anne loves to swim, garden and entertain.

Rebecca Gibb MW is the author of The Wines of New Zealand (2018) and Vintage Crime (publish date 10 October 2023). She reviews New Zealand and Loire Valley wines for Vinous Media, owns wine jigsaw business Puzzle Cru and teaches WSET.

A former winner of the UK's Young Wine Writer of the Year and the inaugural Louis Roederer Emerging Wine Writer of the Year, Rebecca became a Master of Wine in 2015. In a record class of 24 graduates, she was awarded the Outstanding Achievement Award and the Madame Bollinger medal in recognition of her outstanding tasting ability. Having lived in New Zealand for six years (2010-2016), Rebecca returned to England, where she lives in the Lake District with her Kiwi husband and son.

ALSACE

KEY STATS
